PROFESSIONAL SUMMARY

Investment research professional with experience across wealth management, asset management, and equity research, spanning macroeconomics, fixed income, mutual funds, Indonesian equities, offshore equities, and digital assets. Currently at BCA Wealth Management, supporting portfolio management through cross-asset research, daily and monthly market outlooks, and high-conviction investment product analysis. Strong foundation in fundamental research, financial modeling, quantitative analysis, and portfolio construction, complemented by experience leading a 7-analyst research team and building a 4,600+ member financial research community..

PROFESSIONAL EXPERIENCE.

Bank Central Asia (BCA) **September 2026 – Present**
Investment Research & Portfolio Management *Jakarta, Indonesia*

- Conducted macroeconomic research to assess global and domestic economic conditions, monetary policy, interest rates, inflation, and their implications for investment markets.
- Conducted research across fixed income, mutual funds, offshore equities, and Indonesian equities to support investment analysis and product evaluation.
- Prepared daily market outlooks covering key overnight developments, building investment thesis, market movements, economic data, and potential implications for Indonesian investors.
- Assisted in building AI software dashboard for portfolio and investment product analysis by evaluating market conditions, asset-class performance, and relevant investment considerations for wealth management clients.

Revalue Academy **May 2025 – July 2025**
Product Intern *Remote*

- Designed 5 PowerPoint training modules translating Revalue Academy's REVALUE stock-selection framework into accessible financial lessons for live retail-investor classes.
- Applied a visual-first, analogy-based approach to explain technical concepts such as net profit usage and dividend payout as intuitive visual narratives.
- Converted technical valuation and capital-allocation concepts into clear, retail-facing content that improved comprehension without sacrificing accuracy.

Syailendra Capital **February 2025 – May 2025**
Project Consultant (Project Lead) *Remote*

- Led a student consulting team, sourced through SBM ITB Investment Club and ITB Student Consulting, to design an AI/NLP-based market intelligence framework for one of Indonesia's largest domestic asset managers.
- Delivered a sentiment-aware methodology document and interactive dashboard prototype that automated financial news curation and surfaced early macroeconomic trend signals for the portfolio management team.
- Handed off the proof-of-concept and methodology to the firm's investment team, providing an implementation roadmap for future production deployment.

Launchy **October 2023 – May 2024**
Crypto Researcher (Internship → Full-time) *Remote*

- Conducted bottom-up due diligence on 70+ DePIN (Decentralized Physical Infrastructure) projects, assessing tokenomics, ecosystem viability, and yield potential to support institutional allocation decisions.
- Authored monthly deal-flow reports covering 50+ crypto funding rounds, feeding directly into investment-thesis generation for VC and institutional fund clients.
- Mapped the Fantom network ecosystem through on-chain analysis, visualizing protocol interconnections and identifying emerging yield opportunities.

EDUCATION

Institut Teknologi Bandung (ITB) **August 2023 – August 2026**
Bachelor of Management, School of Business and Management (SBM) *Bandung, Indonesia*

- Degree conferred (Yudisium) August 2026; formal graduation ceremony October 2026.
- GPA: 3.45 / 4.00.
- Honors: Bank Indonesia Scholarship Recipient.
- Relevant Coursework: Corporate Finance, Investment Analysis, Financial Statement Analysis, Strategic Management, Business Statistics.

ORGANIZATIONAL EXPERIENCE

Kadin Indonesia **September 2026 – Present**
Product Development *Jakarta, Indonesia*

- Run competitor analysis across executive education and business masterclass providers, benchmarking curriculum scope, delivery format, and positioning to inform how the program is differentiated.
- Develop pricing options for the CEO Masterclass, comparing tiered and bundled structures against competitor price points and the willingness to pay of the target segment.
- Support go-to-market planning by mapping target participant segments and outlining acquisition channels and launch sequencing with the program team.

Not Into Finance **August 2025 – Present**
Founder & CEO *Jakarta, Indonesia*

- Build and scale a Discord-based financial research community to 4,600+ members and 200+ paying subscribers, generating Rp50,000,000 in year-one program revenue through research subscriptions and paid investment classes averaging 500 attendees per session, ahead of full monetization.
- Grow distribution to 10,000+ followers across Instagram and X, sustaining consistent engagement and establishing brand recognition among Indonesian retail and student investors.
- Lead a 7-analyst research team through Notion-based workflows and weekly thesis reviews, publishing institutional-style research spanning Indonesian equities, macroeconomics, and digital assets.
- Close 20+ partnerships, including co-hosted webinars and cross-promotions with McKinsey YLI, Samuel Sekuritas, Syailendra Capital, and leading Indonesian universities

CERTIFICATIONS

LSP – Wakil Perantara Perdagangan Efek (WPPE): Issued April 2026 (Indonesian Broker-Dealer Representative License).

ACHIEVEMENTS

- Equity Research Competitions: Finalist & Top 4, IMPACT Maliki Equity Research Paper (2025, HOLD recommendation on PT Bank Central Asia Tbk – BBCA); Finalist & Best Speaker, UCMC Equity Research Competition.
- Entrepreneurial Grants: Selected as 1 of 3 recipients of the Ministry of Higher Education, Research, and Technology venture grant; 1 of 25 recipients in ITB Student Entrepreneurial Program.
- Guest Speaker: Delivered sessions on capital markets and investment topics at Lotus Andalan Sekuritas, Institut Teknologi Bandung, Universitas Indonesia, and UPN "Veteran".
